

Uncorded Earplugs

HEU645

Features and Benefits

- The ergonomically shaped MaxiPlug disposable earplug is characterised by very high sound absorption levels, making it suitable for use in very loud environments
- The MaxiPlug foam earplug has a sealed surface, preventing foreign bodies from penetrating the plug. The soft foam offers real comfort, even when worn for extended periods
- Class 5 protection with SLC_{80} rating of 26dB
- Tapered design for easy fit
- Soft polyurethane for maximum comfort
- Pairs packaged in individual bags
- 200 pairs per dispenser
- AS/NZS 1270:2002 compliant

Applications

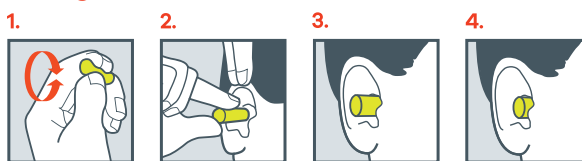

- Agriculture and Forestry
- Chemical
- Construction
- Fire Protection
- Manufacturing
- Medical
- Military
- Mining
- Municipal Services
- Oil and Gases
- Steel and Metals
- Transportation
- Welding

Product Specifications

Product Code	Description	Dispenser Qty	Barcode
HEU645	Maxiplug Uncorded Earplugs	200 Pairs	9342971003248

Fitting Instructions

1. Before using ear plugs, ensure hands are clean. Roll ear plugs between fingers to compact foam.
2. Pull top of ear up and out while inserting earplug. This straightens out the ear canal. Insert ear plug as far as possible into the ear canal. Hold for approx 60 seconds to allow foam to expand.
- 3&4. When ear plugs are inserted correctly the top of the ear plug should be as per fig 4. To test fit cup both hands over your ears. When you pull them away you should notice a significant difference in noise levels. If unsure consult your safety officer.
